Financial Review

Revenues before reimbursements ("net revenues") for the second quarter of fiscal 2013 were \$7.1 billion, compared with \$6.8 billion for the second quarter of fiscal 2012, an increase of 4 percent in both U.S. dollars and local currency. Net revenues for the quarter were within the company's guided range of \$6.9 billion to \$7.15 billion, which assumed a foreign-exchange impact of negative 1 percent. Adjusting for the actual foreign-exchange impact of approximately 0 percent in the quarter, the company's guided range for quarterly net revenues would have been \$6.96 billion to \$7.21 billion.

- Consulting net revenues for the quarter were \$3.8 billion, a decrease of approximately 1 percent in both U.S. dollars and local currency from the second quarter of fiscal 2012.
- Outsourcing net revenues were \$3.3 billion, an increase of 9 percent in U.S. dollars and 10 percent in local currency over the second quarter of fiscal 2012.

Diluted EPS for the quarter were \$1.65, compared with \$0.97 for the second quarter last year, an increase of \$0.68. Excluding these benefits, EPS for the quarter were \$1.00, an increase of \$0.03 from the second quarter last year.

The \$0.68 increase in GAAP EPS reflects:

- \$0.06 from higher revenue and operating results;
- \$0.01 from higher non-operating income;
- \$0.02 from a lower share count;
- \$0.34 from final determinations of prior-year tax liabilities; and
- \$0.31 from a reduction in reorganization liabilities;

partially offset by:

• \$0.06 from a higher effective tax rate excluding the impact of final determinations of prior-year tax liabilities and the reduction in reorganization liabilities.

Gross margin (gross profit as a percentage of net revenues) for the quarter was 31.6 percent, compared with 31.1 percent for the second quarter last year. Selling, general and administrative (SG&A) expenses for the second quarter were \$1.3 billion, or approximately 18.3 percent of net revenues, compared with \$1.2 billion, or approximately 18.0 percent of net revenues, for the second quarter last year.

The company's effective tax rate for the quarter was negative 0.5 percent, including the benefit from final determinations of prior-year U.S. federal tax liabilities. The effective tax rate was also impacted by the reorganization benefit, which increased income before income taxes without any increase in income tax expense. Excluding these benefits, the effective tax rate for the second quarter of fiscal 2013 was 24.8 percent, compared with 20.5 percent for the second quarter last year.

Net income for the quarter was \$1.19 billion, compared with \$714 million for the second quarter last year, and includes the favorable impact of both the \$224 million reorganization benefit and \$243 million from final determinations of prior-year tax liabilities.
